**Subject:** music in the park

West Grey Council

The committee for music in the park would like to hold music in the park at Riverside Park again this year. Due to the covid situation we feel there would be more room at Riverside to social distance. Most people bring their own lawn chair or sit in their car so that we would be able to spread out.

As the Gov of Ontario is now increasing numbers for events we would like the support of Council to go forward with using Riverside so that we may plan for the event to start hopefully some time in July. I have received many calls from seniors who want to get out to the park. After this extremely difficult time for all of us many have the feeling it is time to get moving again.

As well Ralph and Donna Clark have decided to retire from the committee after many years of being involved. Dwight and Shirley Clark have volunteered to take their place.

With thanks
