

### **Epilepsy Awareness Month Purple Lights Request:**

I hope all is well with you as we start 2025 My name is Lynda DeBuck, and I am a Clinical Educator - Epilepsy with Epilepsy Southwestern Ontario

Our organization aims to raise awareness of epilepsy and to provide education and support services to people with epilepsy and their family, as well as provide education to the general public. With the large number of people living with epilepsy (1 in 100) it is very conceivable that one or more of your staff, customers or family has been touched by this disorder.

**March is Epilepsy Awareness Month**, and we are looking for businesses and city landmarks who may be interested in supporting Epilepsy Awareness Month through lighting their buildings either through the entire month of March, one week, or on International Purple Day on March 26th.

Last year London, Sarnia, Windsor, Tillsonburg, Dresden, and Chatham-Kent lit some of their buildings in purple. We would love to have the support of as many buildings a possibly around our region and to see photos of your celebrations. These can be shared with us directly by emailing [katie@epilepsyswo.ca](mailto:katie@epilepsyswo.ca) as well as by tagging us on Instagram, Facebook, Twitter at [@epilepsyswo](https://www.instagram.com/epilepsyswo). We will also share this on social media for our clients and their families to see the support and recognition the community is offering.

Thank you for your consideration! Lynda DeBuck
