Subject: Request for Municipal Support Resolution – IESO 2025 LT2 (Capacity) RFP

Dear Mayor Eccles and Members of Council,

Aurora Renewables respectfully submits this letter to request a **Municipal Support Resolution (MSR)** from the Municipality of West Grey in support of our proposed **ARI Ayton** project - a 26MW battery energy storage facility to be submitted under the **Independent Electricity System Operator (IESO) 2025 LT2 (Capacity) Request for Proposals (RFP)**.

The proposed project site is located at 102269 Concession 6 (Roll# 4205 010 00603600.0000), within the Municipality of West Grey. The project is designed to contribute to Ontario's long-term electricity reliability and regional economic development by providing clean, stable, and dispatchable power to the provincial grid.

Aurora Renewables is committed to working collaboratively with West Grey to ensure that the project aligns with local planning priorities, environmental standards, and community values. If successful, we will initiated engagement with local stakeholders, and plan to continue open communication with municipal staff, the public and indigenous groups throughout the development process.

As part of the IESO's RFP requirements, proponents are required to secure **Municipal Support Resolution** from the host community. This resolution will confirm the land classification for the proposed facility within its jurisdiction and allow our submission to meet the IESO's eligibility criteria.

We respectfully request that the **Municipal Support Resolution** provided be considered at the upcoming November 18, 2025 Council meeting to enable timely submission to the IESO prior to the RFP deadline.

Thank you for your consideration of this request and for your continued commitment to supporting Ontario's clean energy future.

Sincerely,

Greg Rossetti
