

Council report

Meeting date:	May 4, 2021
Title:	1992 E-ONE Pumper Disposal
Prepared by:	Phil Schwartz, Fire Chief
Reviewed by:	Laura Johnston, Chief Administrative Officer

Recommendation

That council declare the 1992 E-ONE Pumper as surplus; and further

That council direct the fire chief to proceed with disposal of the vehicle through auction; and further,

That the proceeds of the sale be allocated to the Neustadt Fire budget to offset the new truck now in service.

Executive summary

The E-One Pumper in Neustadt is passed its usable lifecycle and can be declared surplus to the municipality's need. Staff is recommending the pumper be sold at auction and the proceeds be allocated to the Neustadt Fire budget to offset the new truck now in service.

Background and discussion

The new Fort Gary Pumper is now in service at station #3 (Neustadt). This new pumper has passed its shake down period and now meets service expectations. Consequently, the E-One pumper has been taken out of service and can be deemed as surplus by West Grey council. The best option would be to sell it through action either locally at 6 on 6 Auctions or on Gov-Deals.

Legal and legislated requirements

The E-One truck is 30 years old and, under the NFPA Standard 1901 for Automotive Fire Apparatus, Annex D.1, this vehicle has reached the end of its life as a piece of fire apparatus. Despite its age, it will attract a purchaser through the auction process; however, an exact selling figure is unknown and will depend on the market and bidder activity.
