

West Grey Council,

We respectfully request the opportunity to purchase lands from the municipality of West Grey, which are currently unopened road allowances that abut our land. We live at 262927 Varney Road. Based on the survey that we have (1982) the subject road allowances are as follows: "Thomas Street", "Field Street" and unnamed. We have attached a photo outlining our property with a municipal zoning layer and the unopened road allowances labelled for your reference below.

All road allowances access parcels that we own, commonly known as 262927 Varney Road. None of the neighbouring properties use these road allowances for access. Further, all three allowances are partially or fully on lands zoned "natural environment". Our request is based on the fact that given the zoning and lack of utility to other landowners, these road allowances are a liability to our use of our property, but provide no benefit to any other property in the area. A creek at the north of our property makes through travel on Field and unnamed road allowances impractical and the Thomas street allowance accesses our private property only.

We hope for the above given reasons, the municipality will begin the process to assess and declare these lands surplus, appraise and offer them for sale. If you have any further questions please don't hesitate to contact us. Thank you for your consideration of this request.
