**Re: Bridge #17 West Grey
Safety of Bridge for users of the Saugeen River
Our File WO 20-075**

Dear Chris,

Following our site inspection of the existing bridge deck on the above noted bridge on June 23, 2020, we wish to advise there is no need to restrict water sports beneath the bridge, as long as the bridge remains closed to vehicular traffic.

Our inspection concluded there is no imminent threat of debris falling from the bridge deck in its current state.

If you have any questions, please do not hesitate to contact the undersigned.

Yours Very Truly,

Doug Dixon, P. Eng.
Senior Bridge Engineer
