Municipality of West Grey
402813 Grey Road 4
R. R. 2
Durham, ON N0G 1R0

Dear Mayor Robinson & Council Members,

Thank you for your generous gift of \$10,000.00, in support of the Durham Hospital.

Support from donors helps keep the Durham Hospital equipped with modern medical equipment. Over 400 patients were sent home after a stay in the Durham Hospital and there were 9,460 visits to the hospital's emergency department last year. Each of those people was diagnosed quickly and treated properly in a safe, caring environment.

This grant will be used to help offset physician recruitment expenses. As you know, West Grey is two doctors short of a full contingent, leaving many area residents without a primary care provider. The Foundation is taking a leadership role in recruitment, attending events, hosting visiting medical students, recent graduates and residents. We remain positive that more doctors can and will be recruited to this area.

Every day, 26 people visit the Durham Hospital and are cared for in the ER or admitted to the hospital itself. Because of your generosity, your friends and family members receive top quality care in a modern facility. This top quality health care makes such a difference in the lives of all who need it, patients as well as their loved ones.

Again, thank you for your support for physician recruitment and local health care.

For information on how to support your hospital through monthly gifts or by making a legacy gift in your Will, please contact the Foundation office.

With appreciation,

Rajinder Rajput, Chair
Durham Hospital Foundation
